Technical Information

Applications

NDS Standard Series Valve Boxes are used in residential and commercial applications. They are designed to offer years of service under most demanding conditions and have designations for irrigation control valve and reclaimed water.

Material

One piece moulded of polyolefins (polyethylene and polypropylene). UV inhibitors added in to prevent discoloration and cracking.

NOTE: Please refer to the description of the Box & Cover set to identify those with bolt. For others, the bolt needs to be ordered separately.

NDS Standard Series 6" Round Valve Boxes

The NDS Standard Series 6" round body is tapered and has a minimum wall thickness of 5 mm. The body has a double wall in the top cover seat area, with a minimum thickness of 3 mm. The bottom of the body has a 6 mm flange. The 6" round cover has an average thickness of 5 mm.
